

DECOLONIZING R.E.P. PRACTICES

RACE - EDUCATION - PARENTING

COACHING SESSIONS

description

"DEC. R.E.P." coaching sessions are designed for individuals or small groups committed to exploring and unpacking how colonizing tactics and behaviors impact our R.E.P. practices and ways to shift barriers toward invitations centered on liberation and ancestral healing. Together, through multi-sensory and self-directed learning approaches, we will:

- **Name and identify the unique and intersecting pain points that show up across current R.E.P. Practices and their impact**
- **"Own, acknowledge, reflect, pivot, and practice" through guided prompts, exercises, and emergent dialogue**
- **Learn how to shift barriers toward invitations that reveal practical approaches and strategies to disrupt harmful practices in long-term ways**

a human approach

As your thought partner in this work, sessions are intentionally designed to meet individuals and groups where they are, with nudging's that lovingly push beyond comfort zones, naturally opening the space for emergent and comfortably uncomfortable conversations or silence.

scheduling sessions

"DEC R.E.P." coaching sessions are offered up to twice per month, one hour per session at a rate of \$150 per session.

ELN recognizes that cost can, unfortunately, be a critical barrier to accessing needed support and resources. If the rate poses a challenge, please contact ELN directly at maleka@eclecticlearningnetwork.com to discuss.
